Make this make sense! We have a travel advisory that warns us of the dangers of traveling to these countries, but this administration has opened the door to every last one of them.

Did she not get the memo?

In 2018, Letitia James openly campaigned on the promise of weaponizing the legal system against Donald Trump.

This case was always a sham.

The Democrat Party and the legacy media cheered her on as she undermined the integrity of our judicial system.

Trump's civil fraud conviction, resulting in nearly a half-billion dollar judgement, could get overturned by the NY Appellate Division. Here's nearly two minutes of a panel of five justices absolutely excoriating Letitia James' team of lawyers. WATCH:

NEW: Harris campaign is out with an agenda meant for black men.

It includes giving black entrepreneurs forgivable loans up to \$20,000.

Vice President Harris Will Deliver for Black Men
She Will Provide the Tools to Black Men to Build Wealth, Support Their Families, and Lead in Their Communities

Vice President Harris will build an Opportunity Economy where everyone has the opportunity to get just get by but to get ahead. She knows that Black men have long felt that no other their voice in our political process has gone unheard and that there is no such untapped ambition and leadership within the Black male community. Black men and boys deserve a president who will provide the opportunity to unleash this talent and potential by removing historic barriers to wealth creation, education, employment, housing, health, and improving the criminal justice system. Black men deserve a president who will deliver on promises and equip them with the tools and resources to make their aspirations a reality.

This year, Vice President Harris launched a first-of-its-kind, nationwide Economic Opportunity Tour to help entrepreneurs across the capital and innovation they used to launch and grow their businesses, build wealth, and strengthen their communities – especially Black male entrepreneurs. While traveling across the country to cities like Atlanta, Detroit, and Charlotte, she heard powerful stories from Black men about the biggest hurdles that still make it so difficult for them to get their businesses off the ground and gave them to meet their full ambitions and discussed policies that can help break down remaining barriers to success.

During an insight from her experience throughout her career and the Economic Opportunity Tour, today Vice President Harris is laying out an Opportunity Agenda for Black Men to provide them with the tools to achieve financial freedom, better access to higher pay jobs for themselves and their families, and protect their rights. This pathbreaking agenda includes:

- (1) Providing 1 million men that are fully eligible to Black entrepreneurs and others to start a business
- (2) Championing education, training, and mentorship programs that help Black men get good-paying jobs in high-demand industries and lead their communities, including leadership in historic industries
- (3) Supporting a regulatory framework for entrepreneurship and other digital assets so Black men who invest in and own these assets are protected
- (4) Launching a National Health Equity Initiative focused on Black Men that addresses stable cell disease, diabetes, mental health, prostate cancer, and other health challenges that disproportionately impact them
- (5) Legalizing recreational marijuana and creating opportunities for Black Americans to succeed in the new industry
